

Laguna Lathe

LAGUNA

REVO 20 x 36 - 2HP Lathe

Laguna REVO 20 x 36 Lathe

Laguna tools is leading the Revo-lution in lathes. The new generation lathe has more mass than an other machine in its class, less vibration and a revolutionary servo motor drive system for much higher torque in low RPM. Expect the REVO to exceed your expectations.

Optional Accessories

300mm cast extension with swing away park system

508mm multi function cast extension

1270mm cast bed extension with leg

Tool rest riser bushing for outboard turning

Spindle shield

50mm riser block kit

Specifications

Motor Power: 2HP single phase reversible

Swing over bed: 500mm

Distance between centres: 900mm

Swing over tool rest base: 400mm

RPM: 200—3500 (high) / 50-820 (low)

Floor to spindle centre height: 1100mm

Maximum outboard turning swing: 800mm

Spindle size: 31.75 x 8(RH) TPI

Spindle bore: 16mm / 5/8"

Hole through tailstock: 9.5mm / 3/8"

Tailstock quill travel: 115mm

Tool rest width: 350mm

Face Plate: 75mm

Weight: 322kg
