

Laguna

12" Parallelogram Jointer

LAGUNA

Features

Adjustment: Parallelogram w. crank allows the table to move in the same arc as the cutter-head when raised or lowered

keeping clearance to a minimum

6 row Shear Tec II helical cutter-head for premium results

Deep gullets in the head allow chips to exit fast and keep the machining area clear of chips

84 four-sided German carbide helical cutter inserts set into the head on a flat landing surface which allows more torque to be applied when fixing

Inserts angled to give a shear cut with low impact and less kick-back action—edge crowned to prevent lines appearing

Built in mobility wheels with locking screws

2210 x 305mm bed allows for very large work pieces

Fully enclosed steel cabinet protects motor and mechanics

Specifications

Motor: 3 HP 1 Phase or 5 HP 3 Phase

Cutter head: 5500 RPM

Cutter head diameter: 100mm (4")

4 sided carbide inserts 6 rows x 14 = 84

Width of cut: 300mm

Rabbeting capacity: 19mm

Fence Tilt: 90°, 45° & 135°

Positive stops: 90° & 45°

Table dimensions: 2210 x 305mm

Fence dimensions: 1524 x 137 mm

Table height : 838mm

Dust port: 100mm

Overall dimensions: 2235 x 838 x 1130mm

Weight: gross 488kg, net 399kg
